

You have a wide range of options both within and after completing a vocational programme, and you are entitled to study towards higher education admission either alongside or within the programme. Vocational programmes lead to work straight after completion.

Further study

Bachelor of Engineering in energy and environment

Power engineering programme - heating technology

Development engineer

Vocational educator

Heating, water and sanitation engineer

Bachelor of Engineering in planned maintenance

COLLEGE/UNIVERSITY
Examples of educational programmes

Heating, water, sanitation and real estate programme

HEATING, WATER AND SANITATION

Examples of jobs

Insulation installer

Heating, water and sanitation insulator

Industrial pipe fitter

Sprinkler system installer

Heating, water and sanitation installer

REAL ESTATE

Examples of jobs

Real estate technician

Real estate manager

Real estate maintenance

Caretaker

REFRIGERATION AND HEAT PUMP TECHNOLOGY

Examples of jobs

Refrigeration installer

Heat pump installer

Energy advisor

VENTILATION TECHNOLOGY

Examples of jobs

Energy advisor

Ventilation technician

VOCATIONAL COLLEGES

Examples of educational programmes

Design engineer

Heating, water and sanitation planner

Water supply and sewer system planner

Refrigeration technician

Power and heating plant operator

Refrigeration and ventilation technician

Energy technician

Heat pump technician

Real estate maintenance technician

Real estate engineer

Heating, water and sanitation calculator

Heating, water and sanitation supervisor

Self employment

CEO

Salesperson

Supervisor
